

Career Exploration

Ten Steps

Career Exploration Seminar Objective

Assess your skills, interests, values, lifestyle and work style.

Identify beliefs, concepts and motivators that are influencing your decision-making processes.

Determine the validity of these motivators, beliefs and concepts.

Develop **and** initial list of career options and any obstacles that you might encounter.

Career Exploration Team Objectives

Research the marketplace and potential employment opportunities.

Conduct informational interviews, do volunteer work, observe other professionals in your prospective career path, develop mentor relationships.

Validate the feasibility of your professional objective and identify additional training/education needed, if appropriate.

Develop an action plan to overcome any obstacles or challenges in reaching your goal.

Present your new professional objective and action plan to an impartial Board of Advisors and review your decision-making processes with this Board. Make revisions as needed.

Celebrate your new career path! Implement and manage your search using productivity **measure** to ensure your success.
